OFFICE OF THE FIRST MEMBER OF COUNCIL 25 FEB. 1933 No. 1463

DEWAN'S OFFICE 676 24 FEB. 1933

General Secretary

I understand that the buildings on Nandi Hill are at present in charge of the Gardens Department and that the Public Works Department have nothing to do with them. I think a better arrangement would be to let the Public Works Department look after the repairs and maintenances of the buildings as in the case of other Government buildings. The Gardens Department will use the buildings and look after the grounds.

2) The Public Works Department should be in charge of Dariadowlat Palace, too, not the Gardens Department. (A portion of the annual grant, now included in the Budget of the Gardens Department should be given to the Public Works Department. How much that is to be will have to be determined in consultation with the Superintendent and Chief Engineer.)

3) If the First Member agrees, necessary orders may issue.

2. A statement received from the Superintending Engineer, Mysore Circle showing the present capital cost of the several buildings on the Nandi Hills and the amount required for each building for (1) annual repairs (2) special repairs and (3) improvements is enclosed. It is seen therefrom that Rs 5,480/- is the amount required for annual repairs, Rs 1,770 for special repairs and Rs 5,100 for improvements required, or in all Rs 12,350/-

30) The normal grant for annual repairs of buildings is fixed at 1½% of the capital cost on which the first item is

NOTE—Contn. Sheet.

is based. The sum of Rs 10,000 mentioned previously was both for improvements and repairs. The annual allotment after these improvements are carried out, may perhaps, be reduced in subsequent years to about Rs 2,000 per annum since the buildings are occupied for only a few months in the year. This is exclusive of the establishment maintained for the Bungalows.

H.O.No. 315 d/17-3-34.

33) The file is returned with compliments
The Chief Engineer had asked for a sum of Rs 10,000/- for the maintenance of buildings recently transferred to the charge of the Public Works Department. The statement received from the Superintending Engineer is interesting as the capital costs of large constructions such as

H.O. No 65/35-4.

Serial No.

such as Amritasarovara and Cubbon House are calculated. According to this a sum of Rs 12,350/- is required by the Public Works Department for annual repairs, special repair and improvements. I shall deal with the items in their order in the statement.

A. ANNUAL REPAIRS.

This Department had a limited grant for the purpose and the best use was made of it according to the needs of the Hill Station. But now the Public Works Department is said to have calculated the cost of annual repairs at 1½% of the capital cost according to the normal practice.

No.1 Tippu's Summer Residence.-

The amount asked for is Rs 252/- The maintenance of this building being a Non-muzrai Ancient Monument, has all along been under the Public Works Department. Though this Department was undertaking the annual repairs the bills used to be paid by the Public Works Department which has already an allotment of Rs 50/- sanctioned for this work by the Chief Engineer.

No.11 Sarovaram with pumping arrangements.-

The capital cost of this is taken at Rs 95,596/- and a sum of Rs 600/- has been put down. The Sarovaram is built in stone in such a way that it needs very little annual repairs, and a sum of Rs 600/- seems to be too large an estimate.

No.16 Cubbon Bungalow and Out-houses.-

The capital cost is taken as Rs 1,42,776/- and a sum of Rs 2237/- is put down for annual repairs. There is scope for reduction in this item also.

NOTE—Contn. Sheet.

WD 0246 -GPB—15,000—22-8-32

9

1830

File No. of 193 General and Revenue Secretariat

No.19 Sarkeys Lodge.(The serial number in the Statement is 29).-

This is valued at Rs 33,462/- and a sum of Rs 800/- which works out at nearly 2½% is asked for, while - this building being a strong plain stone construction should not require this very large sum for its annual repairs. Only white-washing, painting doors and - windows once in two or three years, and sundry repairs are all the works to be attended to.

B. SPECIAL REPAIRS.

A sum of Rs 1770/- is provided for special repairs and this amount is probably required.

C. IMPROVEMENTS.

A sum of Rs 5,100/- has been provided in the estimate for Improvements. Out of this, a sum of Rs 1,200/- refers to works connected with Cubbon House and Fort Gate, while the remaining sum of Rs 3,900/- is towards the restoration of dilapidated buildings and Magazines which is a matter on which I cannot say anything definitely before seeing the buildings with the authorities of the Public Works Department.

No.20 (30) Temple Latrines.-

A sum of Rs 350/- is provided for special repairs and Rs 1000/- for improvements. In this connection, I beg to submit that the existence of the long row of latrines within a few feet of the Temple is not desirable. The very idea of having a latrine in such a close - proximity to a place of worship, is ~~offensive~~ repulsive to visitors. And I request that Government may be pleased to have this construction pulled down at a cost of about Rs 350/- now provided for special repairs and a few new ones built in different places in the Hill Station at a cost of Rs 1000/- put down for its improvements.

(34) The Superintendent does not say in his U.O Note how far the figures proposed by the P.W.D are capable of revision, and it is not possible to find out the exact time that may be required It is for consideration and orders whether the Chief Engineer may not be requested to revise the present estimate in consultation with the Depr. Govt Gardens; in regard to the actual requirements of the buildings on the Nandi Hills

19/3/32 19/3/32.

Refer Paras 31 & 32 above.

35) So far as these buildings on the Nandi Hill Station are concerned, they are occupied for only a season, i.e, for a few months in the year. In providing for the cost of the annual repairs, the general rule of calculating the provision at 1½% on the Capital Cost of the building may not perhaps apply, as the Capital cost of these buildings, (particularly for the Amritasarovara & Cubbon House) would be very high, (as noted above by the Supt.) & the repairs & maintenance works etc may be limited to the bare requirements.

36) In the light of the above U. O. remarks of the Supt, the cost of the present estimates may perhaps be revised, with regd to the bare requirements of the buildings. The Sum of Rs 10,000, asked for is large, & it would not be possible to give it from the Gardens Dept Budget.

37) The Chief

Subject:- Transfer of the repairs and maintenance of the buildings in the Nandi Hill Station to the Public Works Department.

Sir,

With reference to your letter No. E 2970-1 G.G. 39-32-2 dated 2nd March 1933 calling for my opinion as regards the amount of the annual Budget grant to be placed at the disposal of the -- Public Works Department for the maintenance of the buildings in the Nandi Hill Station, I have the honor to note below the amounts spent on it by this Department during the past two years.

1930-31	..	..	Rs 844-13- 9
1931-32	..	..	Rs 604- 7- 0

The average of these figures works out to Rs 725/- and it is requested that this amount may be arranged to be placed at the disposal of the Public Works Department.

I have the honor to be

Sir,

Your most obedient servant.

G. G 39-32-10

Dear Sir,

Re: Grant for repairs to the Buildings on the Nandi Hill.

Your D.O.No.1843 dated the 30th November 1933.

I write to inform you that the Superintending Engineer, Mysore Circle, reported that a sum of Rs. 12,350 was required for the annual maintenance of the buildings but the Chief Engineer considered the amount rather high. A further report has been called for from the Superintending Engineer but in the meantime a sum of Rs. 10,000 may be made available under "24 A Communications - Hill stations"

Yours sincerely,

V. Lakshmanachar
